Listen to what happened to one of our customers just two weeks ago....

*"I had spoken with five different junk yards in Utah and three out of the five said they had the fuel pump I needed for my 1981 Toyota SR5 pickup truck. I showed up at two of them only to find that I had to go through their entire lot to see if they even had a Toyota SR5 in stock which they didn't. The next junk yard I went to guaranteed me "100 %" that they had the part I was looking for and guess what, they didn't. After that I threw up my hands and bought a brand-new fuel pump for my truck. After installing it I found out that wasn't the problem. I had just spent two days of my time and \$50 on a part I didn't need. So I called Junkcarcashout.com and they had cash in my hand within two hours.....I wish I would have called them first."*
